- The 127th Tournament of Roses Parade and the 102nd Rose Bowl Game both took place in Pasadena today. The Tournament of Roses Parade began at 0800 hours; Rose Bowl Game activities began at 1330 hours.
- Per the Los Angeles County Territory Representative, the duty officer for the Los Angeles County Office of Emergency Management is assigned to work at the Rose Parade Incident Command Post.
- The Los Angeles County OEM EOC is not activated.
- The Southern Region Duty Officer will monitor the events throughout the day.

Cal OES Law Enforcement Branch, New Year's Activities

- Pasadena, Tournament of Roses, Rose Parade: Cal OES Law Enforcement Branch had 2 Law Enforcement Coordinators and the Large Venue Program coordinator assigned to this event. The event concluded without incident.
- Pasadena, Tournament of Roses, Rose Bowl: Cal OES Law Enforcement Branch had 2 Law Enforcement Coordinators and the Large Venue Program coordinator assigned to this event. The event concluded without incident.

SITUATION SUMMARY

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- Rigid low temperatures are expected again tonight into early Saturday morning as a cold air mass persists over portions Northern California. Temperatures will fall into the teens and 20s across the interior.
- High pressure over the Great Basin and lower pressure over California will result in continued moderate Santa Ana winds with light offshore winds possible again on Saturday. Elevated fire weather conditions will continue today across Los Angeles and Ventura Counties due to the combination of locally gusty winds, low relative humidities, and very dry vegetation. Take extra caution when using potential ignition sources during periods of elevated fire weather conditions.

Active Weather Warnings, Watches and Advisories by County:

WEATHER

WEATHER SYNOPSIS BY REGION:

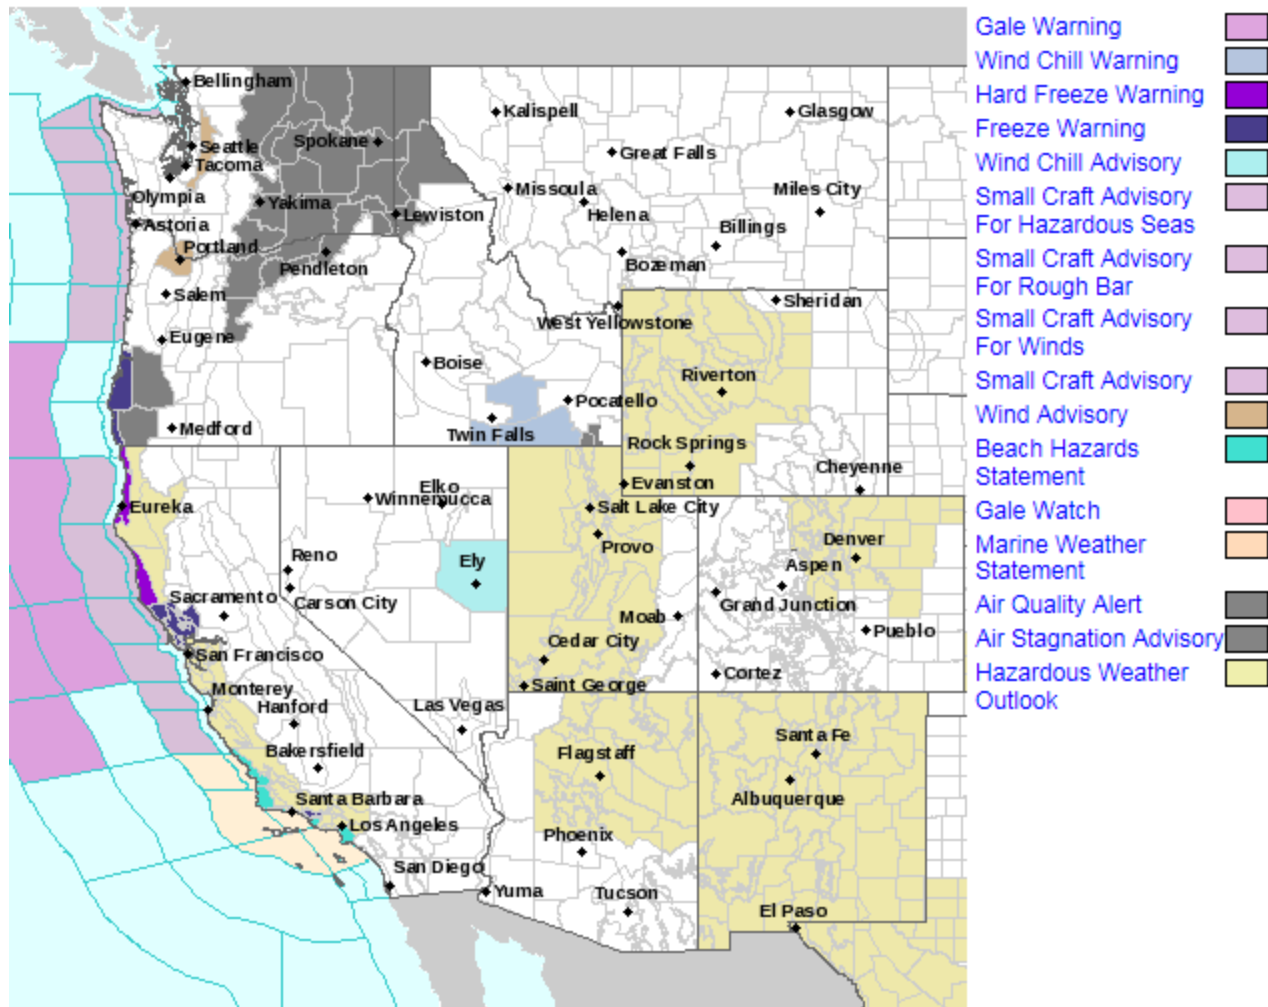

NORTHERN CALIFORNIA

A northerly flow aloft continues over Northern California. A north northeast to east surface wind pattern will continue into early Saturday, with peak gusts reaching 25-35 mph in wind-prone areas from the lower western Cascade-Sierra slopes to the coast during mornings. A disturbance within the northerly flow aloft will deepen into a closed low near the Northern California – Nevada state line this evening. This low will produce clouds and isolated light snow showers in eastern areas into early Saturday. The main affect from the low will be a continuation of the gusty north northeast to east surface wind pattern. By late Saturday the low will move north of the area and a southerly flow will develop over Northern California as the next Pacific storm system approaches the coast. Clouds and southerly winds will increase over the region Sunday, with light to moderate rain moving into coastal areas in the afternoon. Light rain, with snow levels 5000-6000 feet, will spread across the region Sunday night and Monday. A stronger system will bring moderate to heavy rain to the area Monday night through Wednesday, with snow levels dropping to 3000-5000 feet.

SOUTHERN CALIFORNIA

A cold dome of high pressure building over the Great Basin and Rockies will produce an offshore pressure gradient through the end of the week. This will result in cool, dry and breezy weather today through Saturday night. At the current time, east and northeast winds of 10-20 mph with locally higher gusts have developed across some passes and canyons. The cold airmass over the region will keep relative humidities (RH) above 20% for much of the day today, but some mid slope areas may approach 10% Friday evening. Offshore winds of 10-20 mph will still be possible Saturday morning, but all offshore winds should abate by Saturday night. Look for temperatures to reach the 30s in the Sierras, 40s in the mountains of Southern California and the lower 60s in the warmest valleys and coastal areas. Next week will be much wetter as the long wave weather pattern across the Pacific finally appears to be aligning to bring some storms to the region. The first of these will arrive Sunday afternoon across the central coast and Sunday night into Monday for Southern California. A second, much stronger system may arrive Monday night into Tuesday. Widespread wetting rains look probable over most areas next week with snow accumulating above 5,000 feet. Gusty south winds may be possible along the central coast and I-5 Corridor Sunday and Monday. Temperatures will continue to be cool over the next 7 days. No additional periods of offshore flow are expected after Saturday.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 63 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 29 Counties: Butte, Colusa, Calaveras, El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 13 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County), City of Willits (Mendocino County), and City of Fort Bragg (Mendocino County).
